

## Adsum

Adsum offers a range of accountancy services specifically targeted at providing small and growing businesses with the financial resource necessary for effective development. Accurate, meaningful and up-to-date information is at the heart of sound decision making.

All businesses have a number of legal obligations that we will be happy to assist and advise on. These are essentially the compliance functions and are included in the following services provided by Adsum:

- Book-keeping
- Annual accounts
- Tax returns
- Payroll (PAYE)
- VAT

## Value added

Adsum also offers a number of "value added" services that can reap huge benefits for the small business in the long run. These include:

- Management accounting
- Cash flow forecasting
- Reports and analysis
- Accounting software packages

For more information about any of our services please contact us:
